Jurnal Pensil : Pendidikan Teknik Sipil (Jpensil)

Abstracting and Indexing:

Jurnal Pensil : Pendidikan Teknik Sipil

Vol 11 No 3 (2022)

RELEVANCE EMPLOYABILITY SKILLS OF VOCATIONAL HIGH SCHOOL STUDENTS' DEPARTMENT OF SANITATION BUILDING CONSTRUCTION AND MAINTENANCE IN DIY TO THE CONSTRUCTION SERVICE INDUSTRY

Susmita Utami, Widarto Widarto, Shilmi Arifah

LITERATURE REVIEW: THE ROLE OF E-MODULES IN IMPROVING VOCATIONAL STUDENTS' SCIENTIFIC LITERACY SKILLS

Muhammad Nadir, Riyan Arthur, Daryati Daryati

THE DEVELOPMENT OF E-MODULE SOFTWARE AND BIM-BASED BUILDING INTERIOR DESIGN

Regita Indah Mayang Sari, Tuti Iriani, Rosmawita Saleh

STUDENTS' PERCEPTIONS ON THE USE OF E-MODULES IN BUILDING ENGINEERING EDUCATION STUDY PROGRAM

Reza Muhamad, Rosmawita Saleh, R. Eka Murtinugraha

THE EFFECT OF PREPAREDNESS MEASURES ON COMMUNITY PARTICIPATION IN FLOOD EMERGENCY RESPONSE IN RANGKASBITUNG DISTRICT

Ajeng Prihantini, Henita Rahmayanti, Samadi Samadi

INTENSITY OF TRANSPORTATION MOVEMENT IN DKI JAKARTA PSBB AND PPKM POLICIES DURING THE COVID-19 PANDEMIC

Iskumaila Khoirunnisa, Mega Novetriskha Putri, Darmawan Listya Cahya, Dayu Ariesta Kirana Sari

EXPERIENCE OF TEACHING VOCATIONAL SCHOOL IN INDONESIA DURING THE COVID-19 PANDEMIC

Fatin Afifah, Sri Sumarni, Fajar Danur Isnantyo

MAPPING THE UTILIZATION OF AUGMENTED REALITY MEDIA IN VOCATIONAL EDUCATION IN DIY USING K-MEANS

Galeh Nur Indriatno Putra Pratama, Moch. Bruri Triyono, Nur Hasanah, Muhamad A. Ramadhan

THE EFFECT OF COGNITIVE FLEXIBILITY ON IMPROVING CLEAN AND HEALTHY LIVING BEHAVIOR IN ELEMENTARY SCHOOL STUDENTS

Ratna Ayu Wulandari, Nadiroh Nadiroh, Bagus Sumargo

Editor-in-Chief

EDITORIAL FOREWARD

Jurnal Pensil : Pendidikan Teknik Sipil is intended for all academics in Civil Engineering Vocational Education. The presence of the Jurnal Pensil : Pendidikan Teknik Sipil is expected to contribute to the scientific development of educational and vocational technology in civil engineering. The scope of the Jurnal Pensil : Pendidikan Teknik Sipil includes the results of quantitative, qualitative research, experiments, surveys, development, competence, construction management, and scientific studies in the form of literature studies that aim to improve quality and build innovation in technological and vocational education in the field of Civil Engineering.

Jpensil Volume 11 Issue 3 contains 9 articles: 1) Relevance Employability Skills Of Vocational High School Students' Department Of Sanitation Building Construction And Maintenance In Diy To The Construction Service Industry; 2) Literature Review: The Role of E-Modules In Improving Vocational Students' Scientific Literacy Skills; 3) The Development of E-Module Software and BIM-Based Building Interior Design; 4) Students' Perceptions on The Use of E-Modules In Building Engineering Education Study Program; 5) The Effect of Preparedness Measures on Community Participation in Flood Emergency Response In Rangkasbitung District; 6) Intensity Of Transportation Movement in DKI Jakarta PSBB and PPKM Policies During The Covid-19 Pandemic; 7) Experience Of Teaching Vocational School In Indonesia During The Covid-19 Pandemic; 8) Mapping The Utilization Of Augmented Reality Media In Vocational Education in DIY Using K-Means; 9) The Effect Of Cognitive Flexibility on Improving Clean and Healthy Living Behavior In Elementary School Students.

Hopefully, Jpensil can be a reference for readers and researchers in developing civil engineering education.
